

# Evacuation Plan Overview

We've created detailed diagrams highlighting evacuation routes and emergency assembly areas in case we ever need to evacuate the corporate office. Here are the key points:

- **Evacuation Routes:** Multiple routes are shown; in an emergency, please use the safest and shortest route to reach the nearest emergency assembly area.
- **Department Responsibility:** Department heads, please ensure your entire team evacuates promptly and conduct headcounts at the assembly areas.

**Per local fire code, all personnel must exit the building and proceed to the nearest assembly area any time the fire alarm sounds.**
